

FRUIT ROLL UPS OR FRUIT LEATHER

Select fruits such as peaches, strawberries, bananas, apples, etc. Puree with a kitchen blender or food processor and add a little fruit juice. Sweeten to taste with sugar, honey or fruit juice.

Pour the puree onto a Fruit Roll Up & Liquid Tray Insert or cover an entire tray with plastic food wrap. Be sure to cut out the middle hole to allow the hot air to circulate up through the center of the trays.

Although you can use 3 trays for making 3 giant roll ups, we recommend you use only 1 or 2 trays at a time. Rotation of the trays is necessary for the fruit roll up to cure properly.

Dehydrate for 1-2 days with the standard models or about 10 hours with the deluxe motorized-fan unit. Drying times will vary with moisture content and humidity.
