## Deejay's Smoked Corned Beef Hash

Take your leftover corned beef and cut it into pieces small enough to grind into a very coarse grind.

Dice up some potatoes about an equal amount to the amount of meat you will be using and a small onion. Add salt and pepper to taste.

Either fry it up or throw it back into the smoker until taters are tender. If you ami need t make corned beef it is the first half of the pastrami recipe.
